

How long will it take for a package to be delivered?

Hello everyone!

This month let's talk about how long it takes for a package to be delivered.

UPS and FedEx have Express and Ground services. Express service offers one-day, two-day and three-day options; from the names, we can tell how many days it takes for a package to be delivered.

But for ground, we will need to go to https://www.ups.com/maps?loc=en_US and <http://www.fedex.com/grd/maps/ShowMapEntry.do> to download the ground map. This ground map will be generated according to the shipper's zip code.

U.S. Ground Maps

Enter Ship Date and Zip Code

Ground Time-in-Transit Maps provide full color U.S. maps illustrating the number of transit days for delivery via UPS ground services within the 50 states and Puerto Rico. Transit days are based on the ship date and 5-digit ZIP® Code entered. Required fields marked with *

When are you shipping?:*

 
mm/dd/yyyy

From UPS.com

According to this ground map's color zones, we will be able to find out the transit/shipping days. For example, northern California is orange, and orange means 5 days.

Happy shipping!
